Students memories from the mobility in Hungary

Impressions of the Greek students

Vasilis Setsidis:

It was a great experience visiting Budapest.

The buildings of Budapest were very beautiful. In my opinion the most remarkable of those we visited was the church of Mathias because it was really large and outside it had a fantastic view. I enjoyed very much that I met young children from other countries and I will definitely keep in touch with some of them. Also the activities we had to do together were very interesting. The school we visited was unique, well decorated, with an amazing library, a real ornament.

Finally, I loved the zoo because it was so great and it had a lot of incredible animals that I had never seen before. I wish to return to Budapest at some point

Despoina Repa:

Traveling to Budapest was a really characteristic first experience abroad. The school was great, with drawings in the temples and the statues were really impressive along the corridors. The architecture of the city was so impressive

with its beautiful parks, the wide, the greyhounds and the extraordinary animal park, and it was also very nice to work and associate with the other children

Velollari Katerina:

This trip was a perfect experience for me. I am really excited to have visited this city. It was a beautiful and historical city so I have found it really interesting.

The same goes for the school . It was a memorable building and it was also the place where we met with all the participating students and there we did so many activities.

This country is amazing. The food was really tasteful. I liked everything we visited but my favorite were the parks ,namely the park that was near our home at Hero Square.

I've really enjoyed our walk on Margaret Island and that we visited the Zoo. Although we were there for three hours we wanted to spend more time there because there were 3000 different animals to see.

I am really impressed by the organization of public transportation as we didn't have to wait for the bus or tram or metro and it was also impossible to get lost.

I hope to visit this city again and maybe spend even more time. I think I will have many things to see!

Impressions of the Spanish students

Ana:

The Erasmus was an incredible and wonderful experience. We have learnt a lot about the differences of the different cultures. The people were amazing, starting with the teachers and obviously the students. The playful games were perfect for the union of the group. I think that trip it was the best I went before. Thank you so much for all !!

Nuria:

For me, this trip has been one of the most special things I have lived. Meet new people from other countries, visit a city I had never seen and never thought I would visit, learn to communicate with everyone in another language and many other things that I will not talk about because it would take years to finish. I really enjoyed that week and I would love to repeat it.

Isabel:

The experience in my opinion was incredible and unforgettable. The first day we all were so shy because in my case I didn't know anyone because I had never been in Erasmus but with the first activity we did, we all were closer. I really enjoyed the experience and all the different people and cultures. Also I had never been in Hungary so all the places that we visited really surprised me and I'm in love with all these sites. During the week we did a lot of games and activities but the game that I enjoyed the most was the last one. We had to do our own game because we spent a really great time doing it, we put music that we liked and depending on the culture we put different kind of music and it was interesting because they put some kind of music that I've never heard before, Spanish girls put reggaeton and flamenco jajajajaj. They are really funny and friendly and I hope to repeat it again because this week was AMAZING and I really going to miss them.♥

Alexandra:

I have loved this experience since it has been a new and different way of getting to know other countries and their culture. I also liked the attention of the Hungarian people. Budapest has been a city in which we have visited monuments and museums where you have learned very interesting things. I think this trip has helped me to learn more English and to speak with foreign people through the language. I would repeat it again without a doubt!

Impressions of the Turkish students

Ömer Akif Özdemir:

We had so much fun in Budapest. I can definitely say that we had really entertaining and educational moments while working as international groups in project activities. Let's move on to the activity that I liked most. It is the activity that we were supposed to prepare a game in international groups. In that activity, we discussed a lot to make the best game for learning in few hours. To do that, we had to communicate very much. Thus, we could improve our communication skills in an international context. What I can say about my one week in Budapest is I really improved myself. We gained new viewpoints and improved our creativity at the same time we discovered the history of Budapest's fascinating streets and buildings.

Buğra Durmuş Türkiye:

Budapest was such a fascinating city with its history, beauty and uniqueness. I loved every step that we took there because all of the roads had opened to a mystery. It was also really fun discover the city all alone but I'd rather have guidance a bit more.

Education activities were mostly based on us and I suppose the activities were not so rich. Game making in groups looked hard but I believe we all did a good job. Games that we played were also really entertaining.

Overall I've seen one of the most beautiful cities on Earth, made some new friendships and strengthened my olders.

Simay Yazıcı:

First of all, this activity gave me nice experiences, good friendships. Provided the opportunity to know different cultures. We've been close with each other by playing games together. We had fun and educational times. We developed our English and our general culture. My favourite game was which we did with the groups. It was my first overseas experience and it made a contribution to me.

Bilge İklim Çizmecioglu:

I had lot of fun and i learnt too much things in Budapest. First of all my self-confidence has improved. My favourite activity was have 3 hours in CSOPA. I remember that i love science again in there. I will miss Budapest and my friends.

Impressions of the Polish students

Dominik Papka:

Our trip to Hungary was the best school trip ever. We spent one week abroad with a lot of interesting and friendly people. From 7th to 14th April, it was a week only for us and for our language. Every day we were sightseeing one of the prettiest European

cities. Buda and Pest are two cities connected by 10 bridges over the Danube river. Each day was more and more interesting despite of the fatigue. Last day it was raining so we found that Budapest was crying for us. It was a great adventure, see you in another country!

Mikołaj Łukaszyk:

Our Erasmus stay in Budapest was great! I met many fantastic people from other countries. I liked a lot the lesson of tourism. I learned many interesting things about Budapest. Also I liked our city tours which gave me new information about the city and I admired many fantastic monuments and places in Budapest. The most enjoyable was the activity of creating international games. It was time to be creative. Also I learned new words about games. The time in Science Centre was interesting. To sum up, Erasmus in Budapest gave me fantastic experiences which I will never forget.
