

GAME FAIR

No memorize any more come and play for more

Objetives of the meeting

Display the games made during the two years of the project

Highlight and publicize the most important cultural aspects of each country.

Play games in computer rooms, playground and classrooms.

Activities of the meeting

Game show at the Game Fair

Cultural and linguistic immersion in host families

Multiaventure

Bicycle touring

Cultural visits

Memory meeting in Spain

Sunday, September 29

On Sunday night all the participants arrived at the meeting. Some have come by bus and others by private cars. They are received and accompanied to hotels and host families.

Monday, September 30th

Welcome to the School, initial meeting with video projection and tour of the center's facilities.

Later, the students make an Escape room game in the theater and the teachers discuss the program of the week and make a first measure of the project quality indicators.

In the afternoon, teachers and students prepare the stands for the game fair.

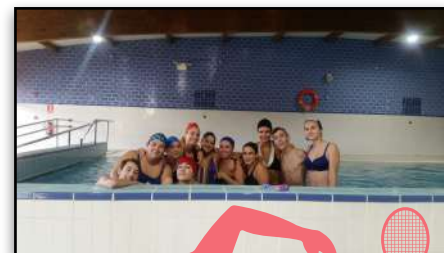

Tuesday October 1st

Throughout the morning, with games of different ages, games designed in their different variants are put into practice: computer games, playground games and board games.

In the afternoon the teachers visit a cattle ranch watching the bulls in their natural environment and the students do recreational activities in the sports center inside the indoor pool and on the padel courts.

Wednesday, October 2nd

In the morning the games continue to be practiced with other schools.

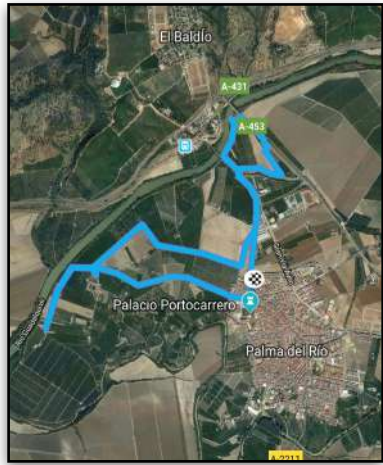

Later we visit the town hall where a small plenary takes place. The students present their opinions about the meeting and take a tour of the city walls and old town.

Delivery of attendance certificates.

In the afternoon, students take a cycle tour through the Rio Guadalquivir, orchard and riverbank area.

Thursday October 3th

Multi-adventure activities are held throughout the morning in the park of the Sierrezuela in Posadas.

The afternoon is left free so that students can do activities with host families.

In the evening a dinner is made where students and teachers attend San Francisco Hospederia. Dinner is enlivened by the Tuna of Palma Del Río and a local flamenco singer.

Friday, October 4th

Tourist visit to Italica Ruins and Seville

Saturday October 5th

Return of the participants to their respective countries.

Other photos of the meeting.

SOME OPINIONS OF STUDENTS ABOUT THE MEETING

For us this has been an unforgettable experience and also for the rest of the group.

This experience allowed us practice English, know more about different countries and cultures. We spent great moments with the other students.

We enjoyed a lot the trip, in fact, it was our first trip abroad and we wish we could repeat it.

We recommend to do this project again so other students have the same or better experience than we had.

Isa and Nuria. (SPAIN)

When I firstly heard about "No memorize anymore" I wasn't really sure what it is about. But during my stay in Palma del Rio I finally realized. I understood that this Erasmus+ project is not only for meeting new people and cultures, but also about learning by playing and making games. I have to say that this exchange was definitely my best and I always will be coming back to it with a lot of joy.

Sonia Bajon (Poland)

Few weeks ago I took part in Erasmus+ project in Spain, Palma del Rio. I met there many interesting people and spent unforgettable moments. I especially enjoyed those 3 days when all students showed their edutainment games. I learned many interesting facts not only about countries that took part in the project. What I also really enjoyed was the time after school work, which we usually spent actively. I don't regret any minute I spent there and I'm very glad I had an opportunity to take part in such a project.

Michał Karpiński (Poland)

I would like to thank for this nice week, also for well-organized time, fantastic attractions. I also would like to thank you for the possibility to integrate with people from other countries. The project „No memorize anymore” showed me that learning by games is very developing. As well I would like to thank to my host family who was very friendly and caring. I hope that another Erasmus+ project will be as interesting as this one and also I hope I will meet my friends from other countries soon.

Franek Zapart (Poland)

Not long time ago we were on Erasmus+ project in Spain, Palma del Río The main idea of this project was "no memorize anymore". It was about learning by playing games instead of just doing the exercises from our books. I enjoyed it mostly because I agree with that just doing books give us less than playing games or talking about it with people. Another reason why I liked being in that project was I was able to find out something about their culture, which is so different than ours. But the most important thing I enjoyed was the opportunity of meeting new people, and fortunately we had a lot of time to make new friends there. What I'm about to say is that this trip was really fun, and if I could go there again I would definitely do that.

Agata Banaszewska (Poland)
